Journal of Capital Normal University

(Natural Science Edition)

Vol.47 No.2 Apr. 2026

Contents

50th Anniversary of the Journal: Application of Geospatical-Temoporal Information Technology

Method for extracting evergreen vegetation in urban areas based on high-resolution remote sensing images ····· LI Zhaoqian, WANG Yanhui(1)

Visual perception-based identification of pedestrians' close contact behaviors ····· LI Dandan, ZHANG Helin, DENG Yue, ZHANG Lin, HE Rixing(8)

50th Anniversary of the Journal: AI for Science

Advances in the applications of machine learning in environmental science and engineering ····· ZHANG Yuhu, LI Jie(18)

Research of Basic Mathematics

Galois adjunction based on Psoset ····· LIU Rui, GENG Jun(28)

Solvability of singular integral equations with two convolution kernels and Hilbert kernel ····· WANG Hongquan, ZHANG Wenwen, LEI Yanxin, YANG Jingpeng, LI Pingrun(32)

The solvability of arithmetic function equation $\varphi_e(n)=Z(SL(n))(e=12)$ ····· GAO Li, LI Xinxin(38)

Decomposition theorem from the viewpoint of Chinese remainder theorem ····· LIN Kailiang, WANG Li(46)

Optics and Quantum Information Science

Design and analysis of high-Q and high-sensitivity terahertz metasurface sensors ····· AN Mingming, SHI Weilin, HAO Jixuan, ZHAO Guozhong(50)

Influence of pyrotechnic mixture formula on the output performance of continuous pyrotechnic- pumped Nd: YAG lasers ····· XIONG Senhua, CHEN Xifang, YI Zao, ZHENG Fusheng(58)

Mechanism of cavitation-acoustic emission in biomimetic plant vessels with fiber-tip Fabry-Pérot microcavities ····· XU Ao, FENG Shengfei(66)

Sustainable Chemical and Green Synthesis

High energy foaming technique on horizontal wells in Yulin gas field ····· WANG Lei, HE Shunan, LIU Hui, CHANG Xia, GUO Haihai, WANG Luyao(74)

Construction of High-quality Education System

Heaviside operator method for solving partial differential equations with constant coefficients ····· LIU Jitao, WANG Jing(82)

Design and teaching practice of pyridine ionic liquid green chemical catalysts: cultivation of innovation ability in the synthesis experiment of ethyl acetate ····· ZHANG Luying, LU Siyuan, XUE Yuting, YANG Ying, WANG Qian, FANG Yu, LI Kai, ZHENG Tingting(86)

From knowledge to virtue: how Physical Chemistry Courses nurture talent and build scholars ····· CHANG Ziyan, XU Zhenzhen, ZHANG Tingyi(94)
