Contents

50th Anniversary of the Journal:Condensed Matter and Plasma Physics

An efficient strategy to improve photoelectrochemical performance of TiO_2 nanowire arrays by optimization electrolytes ……Zhao Xin, Wang Wenzhong(1)

1D nanostructure-assembled CuO/Cu_2O hollow spheres for lithium-ion battery with superior capacity and long cycle life ……Yang Jiao, Wang Wenzhong(11)

Synthesis and visible-light-driven photocatalytic performance of Cu_2O/Au micro-nanostructures……Tu Ya, Wang Wenzhong(21)

50th Anniversary of the Journal:Construction of High-quality Education System

Two unified equations for the thermodynamics and kinetics of chromatographic processes …Dai Chaozheng(26)

Research on solution adsorption theory based on statistical thermodynamics ……Dai Chaozheng(39)

50th Anniversary of the Journal:Computer and Information Engineering

ECG abnormality detection algorithm and edge device design for on-device processing ……Gao Can, Deng Yubo, Qiu Keni(53)

Noisy label learning through progressive attenuation of hard samples ……Guo Kaiwen, Ma Ming, Xia Likun(60)

The mechanism and research progress of negative visual attention bias in the diagnosis and treatment of depression ……Hou Kangyi, Liu Tie, Zhang Handan, Shang Yuanyuan, Ding Hui, Shao Zhuhong(70)

Quaternion Hilbert transform and its applications in color image encryption ……Li Yuwei, Ma Jinming, Sun Zixin, Zhang Shouqi(85)

Trinion Hartley transform and its application in image encryption ……Sun Zixin, Ma Jinming, Li Yuwei, Zhang Shouqi(95)

AI for Science:Functional Materials and Energy

Modification of mechanical properties of polylactic acid based on random forest algorithm ……Luan Xuehong, Liu Huiying(104)

Interdisciplinary Integration

Advances in functional electrode interfaces for regulating cellular adhesion and migration ……Xu Meng, Cui Ziyu, Wang Mengshuang, Yang Junxian, Hu Mingli, Cheng Qiqing, Wang Shi(114)

Theoretical Physics

Study on the equivalent resistance of a class of *n*-ring network ……Tan Zhizhong, Yang Jianhua, Zhang Hua(126)

Study on the electrical properties of a 2×6×*n* cascaded cobweb resistor network ……Luo Lijin, Chen Jian(131)

Intelligent Analytical Chemistry and Multidimensional Detection

Environmental quality assessment and source analysis of heavy metals in coastal surface sediment of Weihai City ……Zhang Ran, Zou Xumei, Zhang Dehuai, Chu Linlin, Li Yang, Wang Jingyun(138)
